GOOD DAY IN WALL STREET, THOUGH CLOSE IS SHAKY.

REPORTED FAILURES HAVE CLEARED FINANCIAL AIR.

Buying of an Investment Kind Appears, but Does Not Follow an Advance in Prices.

New York, July 28.-The stock market

this morning showed the continuing effect of the clearing atmosphere, which resulted from vesterday's and Friday's failures, and the market became quite generally strong. But the brighter sentiment over the outlook did not hold its full force throughout the day. There was rather a pronounced reaction at the last, which wiped out the most important part of the day's gains and took a few of the grain carriers a point or more below last night. New York Central was the conspicuous leader of the advance, rising at one time 2% over last night on buying reputed to be of the best character. The sentimental effect on the market of the buying of this stock and of Pennsylvania and the affiliated stocks, as well as of the coalers and other high-grade railroad stocks, was considerable. Atchison suffered most acutely amongst the market leaders, and its drop upset the late market and led the whole list downwards. The grain carriers were not strong at any time, and were presumably affected by the reports of hot winds in the corn belt.

Keports of crop damage were re-enforced by the upward movement of prices in the grain markets, and the development of grain markets, and the development of profit-taking in those markets did not save stocks from the late reaction. The improved sentiment this morning was largely due to the understanding that the closing out of hypothecated securities for loans, both of the failed firms and of others under pressure for payment of loans on collateral, for which the market is not active, was to

pressure for payment of loans on collateral, for which the market is not active, was to be suspended for the present to await a more favorable market. Late in the day there was indication of a resumption of selling out of collateral on some loans. The buying through commission houses was reported to be better than for many weeks and was hopefully regarded. But this buying did not follow the market upwards.

There was evidence of a purpose to drive in the beers in the calling in of stocks loaned for delivery on short contracts, and in the character of some of the rumors, which were set affoat. There was a report of a private settlement between the Union Pacific interest and one of last week's failed firms, looking to taking over of large holdings of Southern Pacific and a resumption by the firm. RUMOR IS DENIED. This was denied when the Union Pacific

RUMOR IS DENIED.

This was denied when the Union Pacific directors assembled to declare the regular dividends. Toledo, St. Louis and Western was reported to have passed to Grand Trunk control. An offer of 50 for Evansville and Terre Haute control was alleged to have been made by an anonymous bidder. Colorado Fuel was said to have acquired the Utah Iron Company, and its price shot up nearly a dozen points on a few intervening sales just at the last. The other stories were effective in varying degree in causing sharp bidding for the stocks. The renewal of the steel billet pool seemed to be hopefully rgarded amongst iron and steel company shareholders, and stocks of that group were quite generally strong. The time money market was reported appreciably easier, and some long time loans on selected collateral were reported to have been negotiated below 6 per cent. Sanguine hopedate expressed of a strong bank statement Saturday. But the obvious fact was that the demand from the shorts was growing satisfied, and that the investment demand was not following the advance in prices. When traders attempted to take profits on the day's rise, the market therefore gave way and closed unsettled and irregular.

Active bond issues were generally decidedly strong, but there were some wide concessions in the marketing of inactive bonds. Total sales, par value, \$4,85,000. United States bonds were unchanged on call.

Railroad bonds irregular.

Wall Street Gossip.

Reported by the Commercial Advertiser through Francis, Bro. & Co., No. 214 North Fourth street.

New York, July 28.—Foreign—American stocks in London were irregular and on the whole showed a declining tendency, though the curb close was active and firm. Prices came irregularly changed. The arbitrage houses had both buying and selling orders. They were sellers of about 25,000 shares on balance.

New York Central—The leader of the rally was again New York Central. The specialists professed to believe that the principal buying orders came from Vanderbilt sources, and from this arose the story that the Vanderbilts had been thoroughly frightened by the possibility that the control of the property might pass to Standard Oil or other hands; hence the heavy purchases recently.

Evansville and Terre Haute-One of the early features was Evansville and Terre Haute, the movement being accommanded by talk that Mr. Sage was selling out certain loans. The stock railled sharply when it was learned that a bid of 66 had been made by certain capitalists for the holdings of Edwin S. Hooley & Co. and Mr. Hooley personally.

Local Money Market. Clearings were moderate and transactions at the banks were in fair volume. Discount rates were steady between 5 and 6 per cent.

Yesterday's clearing-house statement showed learings \$7,511,802, balances \$1,143,704.

REPUBLIC SPECIAL.

New York, July 28.—Live poultry—Receipts today were 5 cars Western by freight and a few
coops by express. There was a good demand for
chickens and fowls, especially the latter, and
the market ruled steady. Old roosters more
plentiful and slow. Turkeys in moderate supply
and demand. Ducks sold at a wide range in
prices. Geess slow. Pigeons unchanged. No
change in quotations.

Dressed poultry—Receipts to-day 129 bkgs. The
fresh receipts were light, but nearly half. If not
more, of yesterday's arrivals were unsold at the
opening. Invoices to hand are more free, with
about one-third running to fowls. There was in
easier feeling on spring chickens, as Baltimore
and other Southern points offered stock much below prices here, land as a result receivers were

New York, July 28—Buyers of dry goods are operating cautiously and with determination to buy only what immediate necessity Jeannals. High prices are being paid where purchases are for immediate delivery and sellers generally are not anxious for additional business, being unable in many instances to make satisfactory deliv-

SUMMARY OF THE ST. LOUIS MARKETS.

and corn, but the rapid advance established prices which were tempting to a large contingent of traders who had been holding on for profits for a long time. Though Paris and other European markets showed some strength, there was a great deal of export interest. Early builtsh reports from the Northwestern spring belt were modified by later advices. Local receipts were larger than expected and the world's available supply showed a slight increase for the week. Local stocks in store were larger than they had been for some time. The weakness of other markets, the break in corn and the general disposition to let go on the advance wiped out all of the initial gains and the feeling was

Higher values were established for corn futures at the opening. All of the early information was bullish. Weather conditions seemed to be unchanged and there was an abundance of crop-damage statements. Predictions of rain in the States where it is most needed and a bearish Government weather report reversed conditions in the second

hour. The close was sharply lower.

Sept. wheat opened 14c up and closed 1-15c off.

Sept. corn opened the up and closed %64c off. Sept. oats closed 4c off.

Receipts of produce were in fair volume, with values of fruits and vegetables generally well maintained. Transit and United Railways preferred were sharply higher in the local security

Yesterday's bank clearings were \$7,511.892, balances \$1,143,594. Discount rates were steady between 5 and 6 per cent. Spot cotion was unchanged in the local market.

EARLY ADVANCE LOST ON GENERAL LIQUIDATION.

GOVERNMENT WEATHER RE-PORTS ARE BEARISH.

Prospects of Rain and Weakness

in Other Markets Cause a

Break at the Close.

and corn closed lower in the local market. Wheat opened strong on higher foreign markets, and bullish reports on the spring crop. There was good buying for awhile. but the advance only served to encourage liquidation, which became heavy in the second hour. Receipts were larger than had been expected, and local stocks in store were on the increase. The fallure of corn to hold its early advantage weakened wheat in the last hour.

Bradsfreet's report the available supply of wheat east of the Rockies for the past week at 125,000 bu, increase, and stocks in and affoat for Europe decreased 100,000 bu., making the world's visible supply increase 29,000 bu., against a decrease of 2,228,000 bu. a week ago, and a decrease of 7,000 bu. in
